Travelers Oil & Gas offers a free seminar to its insureds that addresses loss of well control causes and risk management techniques to help mitigate or minimize risks identified with loss of well control. This seminar is designed specifically for management, financial and risk management personnel so that they may better understand many of the well control issues that can adversely impact their company's operations.

This seminar is approximately three hours in length and is conducted by Travelers Oil & Gas or Wild Well Control, Inc. personnel who are experienced in well control issues. It is available at no cost to Travelers Oil & Gas insureds and agents.
