

New in Risk Control

New Products and Resources

Safety Every Month of the Year!

Risk Control has created a series of 12 “safety month” posters that customers can print and display at their workplace. Topics include safety for saws, scaffolds, tents, rental tables and chairs, and trailer hook-ups, among others.

To access the posters, you must first log in to Customer Portal. Once in the Portal, click on “Advanced Search” then “Posters/Stickers/Tags” in the “Resource Type” box.

Public Sector UK TravSources

Risk Control has recently introduced a new TravSourcesSM designed specifically for public sector customers located in the United Kingdom. The *Public Sector – UK TravSources* includes technical bulletins, risk management guides and more, that have been branded for use by the United Kingdom. To access the TravSources, log in to the Customer Portal, click on the TravSources link and then choose “Public Sector – UK” from the industry drop-down box.

Driving Safely: Construction Pickups (English and Spanish)

This driver training program (DVD and CD-ROM 59262) has recently been updated to include a Spanish version. Customers can order them from the Education Center in the Customer Portal.

Have You Read Our Latest Success Stories?

Find out how Risk Control has helped other customers by checking out some of our new Success Stories. To find a listing of Success Stories, log in to the Customer Portal and go to the Advanced Search page. Choose “Success Stories” under “Resource Type”. Below are two examples of Success Stories.

Upcoming Events

Aug. 12 Webinar – Managing Safety in an Economic Recession

This Webinar will discuss how businesses, feeling pressure to reduce costs and remain competitive in today's market, may look to reduce head count and labor needs. These cost-cutting measures almost always have an impact on risk exposures and safety. [Register now.](#)

Aug. 26 Webinar – Warehouse Fire Hazards

This Webinar will help you to recognize "hidden" warehouse fire hazards. Listen to our property and claims specialists discuss actual losses and ways to help you identify solutions to reduce the potential for a fire in your warehouse. Registration information will be posted soon under Education and Training. [Registration information](#) will be posted soon under Education and Training.
