

Upcoming Claim Webinars

Here at Travelers, we understand that you don't always have the time to research all the current insurance trends. That is why we offer periodic information sessions on current insurance issues in your area.

Early Intervention in Chronic Pain Cases - A Prescription for Success

July 23, 2009 2:00 PM – 3:00PM Eastern Time

Chronic pain has often been recognized in a claim only after years of unsuccessful medical treatment. Consequently, intervention in such cases is significantly delayed, leading to generally unsuccessful results. Travelers has developed an Early Intervention Chronic Pain (EICP) Program that has produced improved success.

This webinar will provide insights into the process of chronic pain, predictive indicators of chronic pain, and early intervention techniques that work to conquer chronic pain.
