

We have over 30 dedicated fire investigators, including former fire marshals and law enforcement professionals located throughout the country.

Our panel of fire specialists will be available when your business needs them most – to investigate suspicious activity related to a fire and to ensure your claim will benefit from the best available technical and analytical services.

These investigators lead the industry in specialized training designed to equip them with the ability to identify ongoing safety issues surrounding certain problematic products. Our Fire Unit works closely with Travelers Risk Control to create a seamless method for investigating the origins of fires and explosions.

We have on staff two certified Marine Investigators out of 77 certified worldwide. Of these 77 certified Marine Investigators, seven have dual certifications as Marine/Fire Investigators. Two of the seven who hold dual Marine and Marine/Fire Investigator certifications are employees of Travelers.¹

Travelers is continuously developing and acquiring innovative technological systems and investigative techniques to ensure we remain the industry leader in fire investigation. In 2013 alone, there were over 9,600 fire investigations assigned, amounting to a benefit of over \$9.7 million in positive financial impact to our insureds.²

Our investigations are conducted using a full range of support services including:

- Forensics
- Engineering
- Reconstruction
- Scientific Analysis

Travelers Fire Investigative Unit is unrivaled in the insurance industry.

¹As certified by the International Association of Marine/Fire Investigators

²TIS internal reporting.
