Whenever medical care is needed, the injured employee may select any physician or surgeon who is practicing on the island where the injury was incurred to render such care. If the services of a specialist are indicated, the employee may select any such physician or surgeon practicing in the State. The director may authorize the selection of a specialist practicing outside the State where no comparable medical attendance within the State is available.
Change of Provider	If for any reason during the period when medical care is needed, the employee wishes to change to another physician or surgeon, he may do so in accordance with rules prescribed by the director. If the employee is unable to select a physician or surgeon and the emergency nature of the injury requires immediate medical attendance, or if he does not desire to select a physician or surgeon and so advises the employer, the employer shall select the physician or surgeon. Such selection, however, shall not deprive the employee of his right of subsequently selecting a physician or surgeon for continuance of needed medical care. Employee is only allowed one change, changes subsequent to the first change require prior approval by the director or employer.
