
Jillian Kaplan

Distracted Driving Survivor and Advocate/Fundraiser
Safe Roads Alliance

Jillian Kaplan is Product Marketing Manager at Dell Technologies. She is also a mom, wife, animal lover and distracted driving advocate.

Kaplan was out walking her dog one morning before work. While she was crossing a crosswalk, she was hit by a distracted driver who was not paying attention to the road. She sustained multiple traumas including fractures of her pelvis, face, sacrum and sternum, as well as a traumatic brain injury. After months of rehab, she was able return to work and 'normal life'. She credits much of her recovery to living a healthy lifestyle before the collision, and in her free time is a health and fitness coach helping others live a healthy lifestyle.

Kaplan has been working with Safe Roads Alliance since Fox 25 Boston did a story on the collision and connected her with the organization through the story.
